**Subject:** Last contact with Epstein

I visited inmate Epstein in SHU on Thursday. He was getting ready to meet with his attorneys for the day so I had gone to visit him right after the SHU meeting. He had a cell mate at the time with whom I saw him interact with. He did not report any mental health concerns and he denied any suicidal thoughts or intention. He was asking this writer to go to general population and was making requests for various needs he had at the time. He wanted social calls without them being on a speaker phone. He wanted a book he had left in the suicide watch area. His mood was not depressed or anxious. There were no signs of distress. He had planned on meeting with his attorneys to work on his legal situation.

*I hereby certify that I, (b)(6); (b)(7)(C) M.D., City Medical Examiner - II, have performed an autopsy on the body of Jeffrey Edward Epstein, on the 11 of August 2019, commencing at 9:21 AM in the Manhattan Mortuary of the Office of Chief Medical Examiner of the City of New York.*

**EXTERNAL EXAMINATION:**

The body is received in a sealed, labeled, plastic body bag (seal #152384). The body is of a well-developed, thin, muscular, light skinned, 5'10", 196 lb man whose appearance is consistent with the given age of 66 years. The scalp hair is wavy, predominantly grey with interspersed dark hairs, has slight male pattern balding, and measures up to 3". The facial hair is cleanly shaven. The eyes have light irides. The oral cavity has intact teeth in good repair. The tongue is free of natural disease. The finger and toenails are well groomed and free of polish. Striae are on the shoulders. The genitalia are atraumatic and of a normal, circumcised man. The anus is atraumatic.

**POSTMORTEM CHANGES:**

There is moderate, symmetric rigor mortis of the upper and lower extremities and the jaw. Lividity is fixed, purple, and unevenly distributed on the posterior surfaces of the body. The body is cool.

**SCARS:**

On the back of the left shoulder is an oblique, 1-1/2", well healed, linear scar. On the right lower quadrant of the abdomen is an oblique, 2", well healed, linear appendectomy scar.

**THERAPEUTIC PROCEDURES:**

An endotracheal tube is in the mouth, extending into the upper airway. On the lips are multiple, focal, red abrasions. A cervical collar encircles the neck. Electrocardiogram electrodes are on the torso. An intravascular catheter is in the left antecubital fossa. An intraosseous line is in the right shin. A blood pressure cuff encircles the upper, right arm. On the chest between the nipples is a 3" x 3", irregular, yellow abrasion. Internally, there are minimally hemorrhagic, parasternal, rib fractures of right ribs #4-6 and left ribs # 5-6, approximately 60 ml of liquid blood thinly coating the serosal

surfaces of the intra-abdominal organs, and an oblique, 6.5 cm laceration of the liver to the left of the falciform ligament (artifacts of resuscitative chest compressions).

**CLOTHING:**

The body is received clad in a hospital gown.

**INJURIES, EXTERNAL AND INTERNAL:**

*These injuries are described in reference to standard anatomic planes. These injuries are grouped and labeled for descriptive purposes only; no sequence is implied.*

**A. HANGING:**

There is a depressed, focally dried and abraded, noncircumferential ligature furrow of the neck that peaks slightly on both sides of the neck, more steeply on the right side than on the left. On the right side of the neck, the furrow bifurcates anterior to the ear, with one arm that peaks behind the right ear and one arm that extends to the right side of the back of the neck. On the back of the right side of the neck at the end of the lower arm of the furrow is a 1/2" x 1", irregular, red abrasion. The furrow ranges from 13-3/4" to 15" long (measured from both ends of the furrow on the right), and ranges from 1/8" to 1/2" wide. Anteriorly, the furrow passes over the thyroid cartilage. On the upper edge of the right side of the furrow beneath the chin is an adjacent, 3/4 x 1", inverted V-shaped, linear abrasion that ranges in width from 1/8" to 1/4". Beneath the left side of the mandible is a faint, 1/2" x 1-3/4", irregular, red abrasion with multiple, interspersed, deeper, red abrasions that measure up to 1/4 x 3/8".

The face and head are plethoric above the furrow, with petechial hemorrhages of the face that are most marked within the eyebrows. There are multiple, petechial hemorrhages of the palpebral conjunctivae of both eyes, and confluent hemorrhages on the periphery of the right bulbar conjunctiva. There are faint petechial hemorrhages on the mucosal surfaces of the upper and lower lips.

Within the parenchyma of the tongue are multiple, focal, spotty, purple hemorrhages. There is diffuse, purple hemorrhage at the base of the tongue. There are no hemorrhages of the anterior strap muscles of the neck. Posteriorly, there is a single hemorrhage in the left, deep, paraspinal muscles.

Both thyroid cartilage cornuae are fractured, and the left cornua of the hyoid bone is fractured, all with accompanying soft tissue hemorrhages. See also "Anthropology Report." There are no fractures of the cervical vertebrae.

**B. OTHER INJURIES:**

On the back of the left forearm is an oblique, 1", linear, red, abrasion with an adjacent, 1/2" x 1-1/4", faint, red abrasion. On the medial aspect of the back of the right wrist is a 1/8" x 1/2", faint, red contusion, and on the medial aspect of the back of the left wrist is a

similar,  $\frac{1}{2} \times \frac{3}{4}$ ", faint, red contusion. Internally, there is a deep muscle hemorrhage of the left deltoid muscle.

**INTERNAL EXAMINATION:**

**HEAD:** The scalp is without contusion or laceration. The skull is without fracture. There is no epidural, subdural or subarachnoid hemorrhage. The brain weighs 1520 gm. The brain, spinal cord, and dura mater are submitted for neuropathologic evaluation.

**NECK:** See "Injuries."

**BODY HABITUS:** The abdominal pannus is 1-1/4" thick. The body mass index is 27.

**BODY CAVITIES:** The pleural and pericardial cavities are free of abnormal fluid accumulations or adhesions. See also "Therapeutic Procedures."

**CARDIOVASCULAR SYSTEM:** The heart weighs 440 gm and has a normal distribution of right dominant coronary arteries with slight atherosclerosis (left main and left circumflex arteries, no stenoses; left anterior descending artery, multiple, focal, less than 50% stenoses; right coronary artery, multiple, focal, less than 50 to 60% stenoses). The myocardium is brown and diffusely fibrous. There is no focal fibrosis, hemorrhage, or pallor. The free wall of the left ventricle and the interventricular septum are each 1.9 cm thick, and the free wall of the right ventricle is 0.5 cm thick. The four valves and endocardial surfaces are unremarkable. The pulmonary vessels and the venae cavae are free of thrombus and embolus. The aorta has moderate atherosclerosis.

**RESPIRATORY SYSTEM:** The right lung weighs 560 gm and the left weighs 510 gm. Both lungs have spongy, maroon and pink parenchyma that is free of masses. The distribution of bronchi and vasculature are unremarkable. The bronchi are empty.

**LIVER, GALLBLADDER, PANCREAS:** The liver weighs 2480 gm and has soft, brown parenchyma. The gallbladder is unremarkable and contains approximately 30 ml of brown bile without stones. The pancreas is tan, lobular, and free of hemorrhage and mineralization.

**HEMIC AND LYMPHATIC SYSTEMS:** The spleen weighs 270 gm and has an intact, purple capsule and an unremarkable distribution of red and white pulp. There are multiple, enlarged, cervical lymph nodes, measuring up to 1.5 cm in greatest dimension. The remainder of the lymph nodes is unremarkable. There is no thymus. The bone marrow is unremarkable.

**GENITOURINARY SYSTEM:** The right kidney weighs 180 gm and the left weighs 160 gm. Both kidneys have granular, brown surfaces and otherwise unremarkable architecture and vasculature. The ureters maintain uniform caliber into an unremarkable

bladder that contains approximately 5 ml of cloudy, yellow urine. The prostate is slightly and diffusely enlarged, with marked enlargement of the verumontanum. The testes are unremarkable.

**ENDOCRINE SYSTEM:** The pituitary, thyroid, and adrenal glands are unremarkable.

**DIGESTIVE SYSTEM:** The esophagus and gastroesophageal junction are unremarkable. The stomach contains approximately 5 ml of opaque, brown fluid without recognizable food or pills. The gastric mucosa is unremarkable. The small intestine and large intestines and rectum are unremarkable. The vermiform appendix is surgically absent.

**MUSCULOSKELETAL SYSTEM:** See "Therapeutic Procedures." On the anterior, inner surface of the right, first rib is a slightly displaced, healed, fracture callus. The vertebrae, clavicles, remainder of ribs, and pelvis are without fracture. The musculature is well developed and normally distributed.

NEUROPATHOLOGY REPORT  
CASE NUMBER: M-19-019432

NAME OF DECEDENT: EPSTEIN, JEFFREY EDWARD

(AUTOPSY PERFORMED BY (b)(6); (b)(7)(C) ON 8/11/2019)

MACROSCOPIC EXAMINATION (PERFORMED BY (b)(6); (b)(7)(C) WITH (b)(6); (b)(7)(C) IN ATTENDANCE, ON 8/20/2019):

The unfixed brain weighs 1520g (expected, 1200-1500g). Examination of the fixed brain (minus the left occipital pole, removed at the time of autopsy for possible toxicology) shows normal leptomeninges. No contusions, stigmata of herniation, or other surface abnormalities are seen. External brainstem landmarks and cranial nerves are normal. Vessels at the base are distributed normally, and have no atherosclerosis. The cerebellum is normal.

Coronal sections of the cerebral hemispheres reveal normal cortical ribbon, white matter, and deep gray nuclei. There is no midline shift. Hippocampi are symmetrical and of normal volume. Ventricles are normal in size and appearance.

Axial sections of the brainstem and cerebellum *en bloc* show the substantia nigra and locus ceruleus to be well-pigmented. The aqueduct and fourth ventricle are normal. Cerebellar cortex, white matter, and dentate are normal.

Cranial dura from the convexities, tentorium, and base shows falcine ossification (comment: common age-related finding). The venous sinuses and tributary (bridging) veins are patent.

Spinal cord and dura from upper cervical to cauda equina levels show no abnormality, externally or on midsagittal section.

PHOTOGRAPHS: YES

MICROSCOPIC EXAMINATION: NO

FINAL NEUROPATHOLOGIC DIAGNOSIS:

## BACKGROUND:

On 12 August 2019, the Forensic Anthropology Unit received a hyoid and larynx that were removed by (b)(6); (b)(7)(C) during the autopsy of a 66-year-old male and submitted for a trauma analysis. The hyoid was cleaned in warm water and a combination of sodium bicarbonate and enzyme detergent. The larynx was placed in formalin and the soft tissues of the thyroid and cricoid were manually removed to facilitate examination. The specimens were examined radiographically, macroscopically and microscopically.

Figure 1. Diagram of the submitted hyoid and larynx (anterior view) showing the approximate fracture locations (red lines).

(b)(6); (b)(7)(C)

Figure 2. Overview of the submitted hyoid bone exhibiting a fracture to the left greater horn (white arrow).

## FINDINGS:

### *Hyoid*

The greater horns of the hyoid are bilaterally fused to the hyoid body. There is a fracture of the left greater horn (Figures 1 and 2).

*Larynx*

The thyroid cartilage is almost entirely ossified and the cricoid cartilage is partially ossified. The thyroid exhibits two fractures: one to the left superior horn and one to the right superior horn (Figures 1 and 3). The fractures to both the left and right superior horns occur just superior to the junction with the lamina. The cricoid does not exhibit any fractures.

(b)(6); (b)(7)(C)

**Figure 3. Microscopic (10x) posterior views of fractures (white circles) to the left and right superior horns of the thyroid.**

**SUMMARY:**

The hyoid bone exhibits a fracture of the left greater horn. The thyroid exhibits two fractures: one to the right superior horn and one to the left superior horn.

## UNITED STATES GOVERNMENT MEMORANDUM

Metropolitan Correctional Center, New York, New York

**DATE:** August 10, 2019

**TO:** Charisma Edge, Associate Warden Programs

**FROM:** (b)(6); (b)(7)(C) Psy.D., Ph.D., Forensic Psychologist (b)(6); (b)(7)(C) PEP/b

**SUBJECT:** Epstein #76301-054

This memo summarizes the psychology contacts with Mr. Epstein.

Mr. Epstein arrived on July 8, 2019, and was seen by psychology services for an intake screening in SHU. He denied any psychology history or symptoms. The Chief Psychologist spoke with Central Office on July 8, 2019, and it was determined he should be placed on suicide watch and seen for a suicide risk assessment after he returns from court due to his increased suicide risk factors. Mr. Epstein was seen on July 9, 2019, for a suicide risk assessment where he denied any suicide ideation, intention, or plan. Despite his risk factors of his sex offence charge, high profile case with media attention, and pretrial status housed in SHU, his protective factors outweighed his risk factors. He was future oriented, wanted to fight his case, and denied any mental health history or suicidality. He was removed from suicide watch and placed on psychology observation. He was seen the following day at which time he requested to be celled alone if housed in SHU and was told he could not. Mr. Epstein was released from psychology observation and seen on July 11, 2019, in attorney conference. He expressed concerns such as wearing an orange jumpsuit, not receiving medication, and not having enough water during attorney visits. Mr. Epstein was seen one week later, July 16, 2019, for follow up and because he was asking to be seen. He did not express any psychological concerns, rather correctional issues such as not getting a phone call and needing a spoon. An attempt at a SHU review was made on, July 18, 2019; however, Mr. Epstein was with his legal team.

(b)(7)(A)

(b)(7)(A)

Mr. Epstein was seen daily while on psychology observation, each day denying he was suicidal. During one interview, he claimed he could not remember what happened because of his "sleep apnea." On July 30, 2019, Mr. Epstein was removed from psychology observation and returned to SHU. He reported he did not think he could sleep in SHU because of the noise. He denied any psychological concerns. It was noted he would be placed with a cellmate.

- On July 31, 2019, Mr. Epstein was seen for a psychology observation follow up. He stated he was doing as well as can be expected given his circumstances and reported he was going to court for a status hearing. He also reported he slept well. Mr. Epstein was seen for another suicide risk assessment on August 1, 2019, at approximately 1pm, as he returned from court with a note from the court indicating "suicidal tendencies." Mr. Epstein denied he was suicidal. (b)(7)(A)

MORNING WATCH OPERATIONS LIEUTENANT	(b)(6); (b)(7)(C)	DAY WATCH OPERATIONS LIEUTENANT		EVENING WATCH OPERATIONS LIEUTENANT	
---	-------------------	---------------------------------------	--	---	--

A staff member must observe all inmates confined in a continuous locked down status, such as administrative detention or disciplinary segregation, at least once in the first 30 minute period of the hour (example, 12:00 a.m. – 12:30 a.m.) followed by another round in the second 30 minutes period of the same hour (example, 12:30 am – 1:00 a.m.), thus ensuring an inmate is observed at least twice per hour. These rounds are to be conducted on an irregular schedule and no more than 40 minutes apart. All observations must be documented.

FYI

(b)(6); (b)(7)(C) 1/7/2020 7:52 AM >>>

Epstein didn't kill himself, and Ag Barr is lying.... Well I guess more misleading is appropriate way of saying it (Lying through obfuscation). No one was "on camera" that could have went to Epstein's cell. Barr "has watched the videos." What he left out is that if you know the camera's timing and locations you could easily get to Epstein's cell easily. In fact 2-3 men (F.orB.illionairesI.interests agents) could pass through the camera holes on their way to kill Epstein. So in order to debunk this "conspiracy theory" please release the camera type and capabilities of each camera, service records, repairs and upgrades. Can probably find this by going through your public budget/spending info, but thought this might be a quicker way. Now I understand you wouldn't want to give out location of cameras and I fully understand the need for that. Cameras pan, tilt, zoom in and could very easily create "holes" for people to go undetected. Yep there'd have to be many of you corrupt to pull this off and well that just adds to the credibility of my claims. Most of you are corrupt. Why was every "news" outlet reporting for WEEKS that two cameras were out and there was no correction to the story from anyone? Then Ag Barr claims to have watched all videos and says no one enter that area. Except you could get there without being on camera. So, technically he didn't lie, but he is trying to cover it up with completely misleading statements. Oh, and there was one camera out, the one pointed at his cell. Did he watch only a few hours, or a day or two prior? Criminals will wait and do crazy things in order to achieve their goals. I can only imagine the lengths the sick wealthy pedos in power and corrupt underlings would do to keep themselves safe. Just look at the ongoing coup by traitors. They'd do much worse than any criminal I am sure. Wait 1-?? days hidden to kill someone ABSOLUTELY!

Below is the definition of Psychological Observation provided by (b)(6); (b)(7)(C) Chief Psychologist. He will remain on Psychological Observation until tomorrow, where he will be reassessed.

**DEFINITION:** A Psychological Observation occurs when an inmate who suffers from a mental illness, a serious personality disorder, a medical problem (impairing their mental status), or drug intoxication and/or withdrawal symptoms begins to deteriorate. The inmate is no longer mentally stable and therefore, it is inappropriate for s/he to remain in general population or the Special Housing Unit (SHU). Inmates placed on psychological observation differ from inmates placed on suicide watch as they are not imminently suicidal (e.g., have not expressed self-harm or engaged in self-harming behavior), but rather, due to his/her impairment in mental status or functioning (e.g., not eating, not sleeping, disorganized/unusual thinking, poor self-care), his/her behavior can be unpredictable. Psychological Observation status is intended as a temporary designation to be utilized until such time as the inmate becomes sufficiently stable (e.g., able to function independently in general population) to be returned to his/her housing assignment or transferred to an inpatient psychiatric facility such as a Federal Medical Center.

He has a pending incident report for Self-Mutilation and therefore, he will return to the Special Housing Unit (SHU) and will be celled with inmate (b)(6); (b)(7)(C)

(b)(6); (b)(7)(C)

(b)(6); (b)(7)(C)

(b)(6); (b)(7)(C)

His case has been highly publicized and he is in SHU because he requested Protective Custody.

Below is the definition of Psychological Observation provided by [REDACTED] Chief Psychologist. He will remain on Psychological Observation until tomorrow, where he will be reassessed.

**DEFINITION:** A Psychological Observation occurs when an inmate who suffers from a mental illness, a serious personality disorder, a medical problem (impairing their mental status), or drug intoxication and/or withdrawal symptoms begins to deteriorate. The inmate is no longer mentally stable and therefore, it is inappropriate for s/he to remain in general population or the Special Housing Unit (SHU). Inmates placed on psychological observation differ from inmates placed on suicide watch as they are not imminently suicidal (e.g., have not expressed self-harm or engaged in self-harming behavior), but rather, due to his/her impairment in mental status or functioning (e.g., not eating, not sleeping, disorganized/unusual thinking, poor self-care), his/her behavior can be unpredictable. Psychological Observation status is intended as a temporary designation to be utilized until such time as the inmate becomes sufficiently stable (e.g., able to function independently in general population) to be returned to his/her housing assignment or transferred to an inpatient psychiatric facility such as a Federal Medical Center.

He has a pending incident report for Self-Mutilation and therefore, he will return to the Special Housing Unit (SHU) and will be celled with inmate [REDACTED]

[REDACTED]

His case has been highly publicized and he is in SHU because he requested Protective Custody.

Lamine - The memo is very confusing. Please draft an email of his actions and current status. Also include what plans were in motion to move him to a GP unit. It will need to be done by 8/1/19.

Hello,

Epstein is pending a Code 228, Tattooing or Self-Mutilation and I spoke with (b)(6); (b)(7)(C) who indicated that most likely he will be found competent because he is not mentally ill. (b)(7)(A)

(b)(7)(A)

(b)(7)(A) Therefore, he will be pending a UDC hearing. Should he return to SHU, he will be housed with inmate

(b)(6); (b)(7)(C) is a 54-year-old White Male. He is a Pretrial inmate on a Supervised Release Violation for Failure to Register as Sex Offender. He is refusing to go to general population.

Below is the definition of Psychological Observation provided by (b)(6); (b)(7)(C) Chief Psychologist. He will remain on Psychological Observation until tomorrow, where he will be reassessed.

**DEFINITION:** A Psychological Observation occurs when an inmate who suffers from a mental illness, a serious personality disorder, a medical problem (impairing their mental status), or drug intoxication and/or withdrawal symptoms begins to deteriorate. The inmate is no longer mentally stable and therefore, it is inappropriate for s/he to remain in general population or the Special Housing Unit (SHU). Inmates placed on psychological observation differ from inmates placed on suicide watch as they are not imminently suicidal (e.g., have not expressed self-harm or engaged in self-harming behavior), but rather, due to his/her impairment in mental status or functioning (e.g., not eating, not sleeping, disorganized/unusual thinking, poor self-care), his/her behavior can be unpredictable. Psychological Observation status is intended as a temporary designation to be utilized until such time as the inmate becomes sufficiently stable (e.g., able to function independently in general population) to be returned to his/her housing assignment or transferred to an inpatient psychiatric facility such as a Federal Medical Center.

He has a pending incident report for Self-Mutilation and therefore, he will return to the Special Housing Unit (SHU) and will be celled with inmate (b)(6); (b)(7)(C)

(b)(6); (b)(7)(C)

(b)(6); (b)(7)(C)

(b)(6); (b)(7)(C)

His case has been highly publicized and he is in SHU because he requested Protective Custody.

Below is the definition of Psychological Observation provided by [REDACTED] Chief Psychologist. He will remain on Psychological Observation until tomorrow, where he will be reassessed.

**DEFINITION:** A Psychological Observation occurs when an inmate who suffers from a mental illness, a serious personality disorder, a medical problem (impairing their mental status), or drug

intoxication and/or withdrawal symptoms begins to deteriorate. The inmate is no longer mentally stable and therefore, it is inappropriate for s/he to remain in general population or the Special Housing Unit (SHU). Inmates placed on psychological observation differ from inmates placed on suicide watch as they are not imminently suicidal (e.g., have not expressed self-harm or engaged in self-harming behavior), but rather, due to his/her impairment in mental status or functioning (e.g., not eating, not sleeping, disorganized/unusual thinking, poor self-care), his/her behavior can be unpredictable. Psychological Observation status is intended as a temporary designation to be utilized until such time as the inmate becomes sufficiently stable (e.g., able to function independently in general population) to be returned to his/her housing assignment or transferred to an inpatient psychiatric facility such as a Federal Medical Center.

He has a pending incident report for Self-Mutilation and therefore, he will return to the Special Housing Unit (SHU) and will be celled with inmate (b)(6); (b)(7)(C)

(b)(6); (b)(7)(C)

(b)(6); (b)(7)(C)

His case has been highly publicized and he is in SHU because he requested Protective Custody.

Good morning: Same presentation today, but he said he thinks his memory for the incident (injury to his neck) may be impaired because of his sleep apnea. He is supposed to get his CPAP machine today. He is aware he will be returning to SHU, but said he is feeling unwell due to his inability to sleep and numbness in his arm. He requested to have one good night of sleep with his CPAP and will return to SHU with a cellmate tomorrow. (b)(7)(A) I told him he can stay down one more night to receive his CPAP and a good night's sleep, but that he would be returned to SHU tomorrow. It was explained that there is no mental health issues precluding him from returning to SHU tomorrow and that we could not house him in the SW/Hospital area because (b)(7)(A) or more comfortable for him. (b)(7)(A) He will remain on psychological observation today and will transition to the SHU tomorrow. Thank you, (b)(6); (b)(7)(C)

AW Skipper-Scott,

Inmate Epstein seems psychologically stable.

He complained that his right arm was numb and hanging earlier. Nurse (b)(6); (b)(7)(C) saw him.

He again said his right arm still feels somewhat numb and he said he cannot make a fist with that hand. He also said he has numbness on his neck. I informed Nurse (b)(6); (b)(7)(C)

He stated the toilet in his cell was running for 45 minutes last night and he could not take the noise. He is going to try the toilet before going to legal today and if it does not shut off, he will be moved to another cell.

Thanks,

Below is the definition of Psychological Observation provided by (b)(6); (b)(7)(C) Chief Psychologist. He will remain on Psychological Observation until tomorrow, where he will be reassessed.

**DEFINITION:** A Psychological Observation occurs when an inmate who suffers from a mental illness, a serious personality disorder, a medical problem (impairing their mental status), or drug

serious personality disorder, a medical problem (impairing their mental status), or drug intoxication and/or withdrawal symptoms begins to deteriorate. The inmate is no longer mentally stable and therefore, it is inappropriate for s/he to remain in general population or the Special Housing Unit (SHU). Inmates placed on psychological observation differ from inmates placed on suicide watch as they are not imminently suicidal (e.g., have not expressed self-harm or engaged in self-harming behavior), but rather, due to his/her impairment in mental status or functioning (e.g., not eating, not sleeping, disorganized/unusual thinking, poor self-care), his/her behavior can be unpredictable. Psychological Observation status is intended as a temporary designation to be utilized until such time as the inmate becomes sufficiently stable (e.g., able to function independently in general population) to be returned to his/her housing assignment or transferred to an inpatient psychiatric facility such as a Federal Medical Center.

He has a pending incident report for Self-Mutilation and therefore, he will return to the Special Housing Unit (SHU) and will be celled with inmate (b)(6); (b)(7)(C)

(b)(6); (b)(7)(C)

(b)(6); (b)(7)(C)

His case has been highly publicized and he is in SHU because he requested Protective Custody.

Hello,

Epstein is pending a Code 228, Tattooing or Self-Mutilation and I spoke with (b)(6); (b)(7)(C) who indicated that most likely he will be found competent because he is not mentally ill. (b)(7)(A)

(b)(7)(A)  
(b)(7)(A) Therefore, he will be pending a UDC hearing. Should he return to SHU, he will be housed with inmate (b)(6); (b)(7)(C) is a 54-year-old White Male. He is a Pretrial inmate on a Supervised Release Violation for Failure to Register as Sex Offender. He is refusing to go to general population.

The other inmates in SHU were reviewed for a possible cell mate, however, inmate (b)(6); (b)(7)(C) were determined the appropriate candidates as cell mates. However, (b)(6); (b)(7)(C) releases on July 26, 2019. He is also the current cell mate of inmate (b)(6); (b)(7)(C)

We are still reviewing cases in the general population for a possible cell mate.

If I haven't addressed your questions, please call me and let me know. Thanks.

Below is the definition of Psychological Observation provided by (b)(6); (b)(7)(C) Chief Psychologist. He will remain on Psychological Observation until tomorrow, where he will be reassessed.

**DEFINITION:** A Psychological Observation occurs when an inmate who suffers from a mental illness, a serious personality disorder, a medical problem (impairing their mental status), or drug intoxication and/or withdrawal symptoms begins to deteriorate. The inmate is no longer mentally stable and therefore, it is inappropriate for s/he to remain in general population or the Special Housing Unit (SHU). Inmates placed on psychological observation differ from inmates placed on suicide watch as they are not imminently suicidal (e.g., have not expressed self-harm or engaged in self-harming behavior), but rather, due to his/her impairment in mental status or functioning (e.g., not eating, not sleeping, disorganized/unusual thinking, poor self-care), his/her behavior can be unpredictable. Psychological Observation status is intended as a temporary designation to be utilized until such time as the inmate becomes sufficiently stable (e.g., able to function independently in general population) to be returned to his/her housing assignment or transferred to an inpatient psychiatric facility such as a Federal Medical Center.

He has a pending incident report for Self-Mutilation and therefore, he will return to the Special Housing Unit (SHU) and will be celled with inmate (b)(6); (b)(7)(C)

(b)(6); (b)(7)(C)

(b)(6); (b)(7)(C)

His case has been highly publicized and he is in SHU because he requested Protective Custody.

Good morning: Same presentation today, but he said he thinks his memory for the incident (injury to his neck) may be impaired because of his sleep apnea. He is supposed to get his CPAP machine today. He is aware he will be returning to SHU, but said he is feeling unwell due to his inability to sleep and numbness in his arm. He requested to have one good night of sleep with his CPAP and will return to SHU with a cellmate tomorrow. (b)(7)(A)

I told him he can stay down one more night to receive his CPAP and a good night's sleep, but that he would be returned to SHU tomorrow. It was explained that there is no mental health issues precluding him from returning to SHU tomorrow and that we could not house him in the SW/Hospital area because (b)(7)(A) or more comfortable for him. (b)(7)(A) He will remain on psychological observation today and will transition to the SHU tomorrow. Thank you, (b)(6); (b)(7)(C)

AW Skipper-Scott,

Inmate Epstein seems psychologically stable.

He complained that his right arm was numb and hanging earlier. Nurse (b)(6); (b)(7)(C) saw him.

He again said his right arm still feels somewhat numb and he said he cannot make a fist with that hand. He also said he has numbness on his neck. I informed Nurse (b)(6); (b)(7)(C)

He stated the toilet in his cell was running for 45 minutes last night and he could not take the noise. He is going to try the toilet before going to legal today and if it does not shut off, he will be moved to another cell.

Thanks,

Below is the definition of Psychological Observation provided by (b)(6); (b)(7)(C) Chief Psychologist. He will remain on Psychological Observation until tomorrow, where he will be reassessed.

**DEFINITION:** A Psychological Observation occurs when an inmate who suffers from a mental illness, a serious personality disorder, a medical problem (impairing their mental status), or drug intoxication and/or withdrawal symptoms begins to deteriorate. The inmate is no longer mentally stable and therefore, it is inappropriate for s/he to remain in general population or the Special Housing Unit (SHU). Inmates placed on psychological observation differ from inmates placed on suicide watch as they are not imminently suicidal (e.g., have not expressed self-harm or engaged in self-harming behavior), but rather, due to his/her impairment in mental status or functioning (e.g., not eating, not sleeping, disorganized/unusual thinking, poor self-care), his/her behavior can be unpredictable. Psychological Observation status is intended as a temporary designation to be utilized until such time as the inmate becomes sufficiently stable (e.g., able to function independently in general population) to be returned to his/her housing assignment or transferred to an inpatient psychiatric facility such as a Federal Medical Center.

He has a pending incident report for Self-Mutilation and therefore, he will return to the Special Housing Unit (SHU) and will be celled with inmate (b)(6); (b)(7)(C)

(b)(6); (b)(7)(C)

(b)(6); (b)(7)(C)

His case has been highly publicized and he is in SHU because he requested Protective Custody.

TEXT.htm

Good morning: Same presentation today, but he said he thinks his memory for the incident (injury to his neck) may be impaired because of his sleep apnea. He is supposed to get his CPAP machine today. He is aware he will be returning to SHU, but said he is feeling unwell due to his inability to sleep and numbness in his arm. He requested to have one good night of sleep with his CPAP and will return to SHU with a cellmate tomorrow. (b)(7)(A)

I told him he can stay down one more night to receive his CPAP and a good night's sleep, but that he would be returned to SHU tomorrow. It was explained that there is no mental health issues precluding him from returning to SHU tomorrow and that we could not house him in the SW/Hospital area because (b)(7)(A) or more comfortable for him. (b)(7)(A) He will remain on psychological observation today and will transition to the SHU tomorrow. Thank you (b)(6); (b)(7)(C)

AW Skipper-Scott,

Inmate Epstein seems psychologically stable.

He complained that his right arm was numb and hanging earlier. Nurse (b)(6); (b)(7)(C) saw him.

He again said his right arm still feels somewhat numb and he said he cannot make a fist with that hand. He also said he has numbness on his neck. I informed Nurse (b)(6); (b)(7)(C)

He stated the toilet in his cell was running for 45 minutes last night and he could not take the noise. He is going to try the toilet before going to legal today and if it does not shut off, he will be moved to another cell.

Thanks,

(b)(6); (b)(7)(C)

Below is the definition of Psychological Observation provided by (b)(6); (b)(7)(C) Chief Psychologist. He will remain on Psychological Observation until tomorrow, where he will be reassessed.

**DEFINITION:** A Psychological Observation occurs when an inmate who suffers from a mental illness, a serious personality disorder, a medical problem (impairing their mental status), or drug intoxication and/or withdrawal symptoms begins to deteriorate. The inmate is no longer mentally stable and therefore, it is inappropriate for s/he to remain in general population or the Special Housing Unit (SHU). Inmates placed on psychological observation differ from inmates placed on suicide watch as they are not imminently suicidal (e.g., have not expressed self-harm or engaged in self-harming behavior), but rather, due to his/her impairment in mental status or functioning (e.g., not eating, not sleeping, disorganized/unusual thinking, poor self-care), his/her behavior can be unpredictable. Psychological Observation status is intended as a temporary designation to be utilized until such time as the inmate becomes sufficiently stable (e.g., able to function independently in general population) to be returned to his/her housing assignment or transferred to an inpatient psychiatric facility such as a Federal Medical Center.

He has a pending incident report for Self-Mutilation and therefore, he will return to the Special Housing Unit (SHU) and will be celled with inmate (b)(6); (b)(7)(C)

(b)(6); (b)(7)(C)

(b)(6); (b)(7)(C)

His case has been highly publicized and he is in SHU because he requested Protective Custody.

Below is the definition of Psychological Observation provided by (b)(6); (b)(7)(C) Chief Psychologist. He will remain on Psychological Observation until tomorrow, where he will be reassessed.

**DEFINITION:** A Psychological Observation occurs when an inmate who suffers from a mental illness, a serious personality disorder, a medical problem (impairing their mental status), or drug intoxication and/or withdrawal symptoms begins to deteriorate. The inmate is no longer mentally stable and therefore, it is inappropriate for s/he to remain in general population or the Special Housing Unit (SHU). Inmates placed on psychological observation differ from inmates placed on suicide watch as they are not imminently suicidal (e.g., have not expressed self-harm or engaged in self-harming behavior), but rather, due to his/her impairment in mental status or functioning (e.g., not eating, not sleeping, disorganized/unusual thinking, poor self-care), his/her behavior can be unpredictable. Psychological Observation status is intended as a temporary designation to be utilized until such time as the inmate becomes sufficiently stable (e.g., able to function independently in general population) to be returned to his/her housing assignment or transferred to an inpatient psychiatric facility such as a Federal Medical Center.

He has a pending incident report for Self-Mutilation and therefore, he will return to the Special Housing Unit (SHU) and will be celled with inmate (b)(6); (b)(7)(C)

(b)(6); (b)(7)(C)

His case has been highly publicized and he is in SHU because he requested Protective Custody.

## PSYCHOLOGICAL RECONSTRUCTION OF INMATE DEATH

(b)(7)(A)

Name: Jeffrey Epstein  
Register Number: 76318-054

Date of Death: 08-10-2019

Prepared by: (b)(6); (b)(7)(C) National Suicide Prevention Coordinator,  
Psychology Services Branch, Central Office

### **BACKGROUND INFORMATION**

Mr. Jeffrey Epstein was a 66-year-old, White male who died on August 10, 2019, while housed at the Metropolitan Correctional Complex (MCC), in New York, New York. James C. Wills, former Acting Assistant Director, Reentry Services Division, appointed a team to conduct a psychological reconstruction. The team consisted of (b)(6); (b)(7)(C), National Suicide Prevention Coordinator, Central Office; (b)(6); (b)(7)(C), Sex Offender Treatment Programs Coordinator, Central Office; (b)(6); (b)(7)(C), Mental Health Treatment Coordinator, Central Office; and (b)(6); (b)(7)(C), Correctional Services Administrator, Northeast Regional Office. This reconstruction was established in accordance with Bureau of Prisons' (BOP) Program Statement 5324.08, Suicide Prevention Program.

**Social History:** Mr. Epstein did not have a Pre-Sentence Report (PSR) available at the time of the reconstruction; therefore, no official information regarding social history was accessible. The following was gathered from publicly available documents. Mr. Epstein was born in 1953 and grew up in a middle-class family in the neighborhood of Sea Gate on Coney Island, Brooklyn, New York, with one brother. After early promotion in two grades, Mr. Epstein graduated from Lafayette High School in 1969, at the age of 16. He attended Cooper Union and New York University but did not graduate from either. Mr. Epstein taught at the Dalton School, a private school on the Upper East Side of Manhattan from September 1974 until he was

dismissed in June 1976 for inadequate development as a teacher. Following that, he held a number of positions in the financial industry to include a position as a limited partner at Bear Stearns until he was dismissed for unknown policy violations in 1981. He also worked as a financial consultant and founded at least two separate companies.

Mr. Epstein had two significant periods of employment. The first of these was his position as a consultant with (b)(6); (b)(7)(C) in the late 1980s. (b)(6); (b)(7)(C) was described as his first mentor. (b)(6); (b)(7)(C) was later convicted and incarcerated for running a large Ponzi scheme. He implicated Mr. Epstein in fraudulently diverting company funds for his own personal use. Years later (b)(6); (b)(7)(C) Mr. Epstein's sole client at J. Epstein and Company, granted him power of attorney over his affairs. Despite also being identified as (b)(6); (b)(7)(C) mentee, Mr. Epstein was again accused of misappropriating funds—more than 46 million dollars. These large sums are believed to be the seed money Mr. Epstein used to establish his considerable fortune. These events are indicative of Mr. Epstein's highly-regarded intelligence and charismatic personality.

**Legal History:** Mr. Epstein had a history of adult criminal charges and convictions. In June 2008, he entered into a non-prosecution agreement and pleaded guilty to one count Solicitation of Prostitution and one count Procuring a Person Under the Age of 18 for Prostitution in the state of Florida. He was sentenced to 30 months: 18 months of incarceration and 12 months of probation. He was also mandated to register as a sex offender under the National Sex Offender Registration and Notification Act. Mr. Epstein served 13 of his 18-month incarceration and then successfully completed 12 months of probation. It is unclear whether he followed the sex offender registration guidelines in each place he owned a residence.

In regard to pending charges, Mr. Epstein was formally charged with Sex Trafficking Conspiracy in violation of 18 U.S.C. § 371 and Sex Trafficking in violation of 18 U.S.C. § 1591(a), (b) (2), 2 on July 2, 2019. Specifically, he was accused of sexually exploiting and abusing minor females over the course of several years. Charging documents allege Mr. Epstein enticed and recruited minor females to engage in sexual activity. The minor females were reportedly compensated with cash following the sexual encounters and some were encouraged to find other minor females to accompany them to Mr. Epstein's residences in New York or Florida. He pleaded not guilty to these charges and was in pretrial status at the time of his death.

In a 37-page Decision & Order Remanding the Defendant, signed by Judge Richard M. Berman on July 18, 2019, 18 pages were dedicated to detailing the danger Mr. Epstein posed to others and the community. The document also alleged he was a flight risk. As a result, Mr. Epstein's proposed bail package was determined to be inadequate. He was denied pretrial release and held on remand.

**Institutional History:** On July 6, 2019, Mr. Epstein was arrested at Teterboro Airport in New Jersey upon his return from Paris, France. It is unknown whether he was anticipating this arrest. He was transported to MCC New York and keyed into SENTRY at 9:24 p.m. that evening. Mr. Epstein was placed in a general population housing unit for approximately 22 hours. On July 7, 2019, at approximately 7:20 p.m. he was moved to the Special Housing Unit (SHU) pending reclassification due to the significant increase in media coverage and awareness of his notoriety among the inmate population.

(b)(7)(A)

(b)(7)(A)

Also, a review of financial transactions associated with Mr. Epstein's prison account revealed one of his attorneys was depositing funds into his cellmate's (inmate Reyes) commissary account for unknown reasons.

### **HEALTH CARE AND PERSONALITY DESCRIPTION**

BOP Electronic Medical Records (BEMR) indicate Mr. Epstein was diagnosed with hyperlipidemia, sleep apnea, hypertension, constipation, prediabetes, neuralgia, and neuritis unspecified. He was prescribed the following medications: docusate sodium, milk of magnesia, omega 3, methylprednisone, and bisacodyl. Mr. Epstein was also prescribed insulin, and the prescription required him to go to the institution pharmacy for administration of this medication. However, the dates for which it was prescribed have a notation indicating "dose not indicated," thus it does not appear insulin was routinely medically necessary. The rest of the medications prescribed were self-carry. He also had a continuous positive airway pressure (CPAP) machine which is typically used to treat sleep apnea. Mr. Epstein was provided with his personal CPAP machine on July 30, 2019, per BEMR.

(b)(7)(A)

(b)(7)(A)

(b)(7)(A)

He reported frequent complaints of difficulty sleeping. He did not have access to his CPAP machine until it was reportedly provided to him on July 30, 2019. Mr. Epstein also reported he was bothered by noise in the SHU. At times, he noted concerns related to his safety in SHU or on a general population housing unit. On two occasions, July 26, 2019, and July 27, 2019, he described himself as a coward and as someone who does not like pain. On July 28, 2019, he told (b)(6); (b)(7)(C) the toilet in his cell would not stop flushing for an extended period of time, and he then took to sitting in the corner with his hands over his ears. Mr. Epstein indicated he was agitated following this incident and was unable to sleep that night.

### ANTECEDENT CIRCUMSTANCES

Mr. Epstein entered BOP custody on July 6, 2019, with a history of convictions for sexual offenses and allegations comprised of more serious charges. The current indictment alleged sexual crimes against minors, and he was facing up to 45 years in prison. On July 18, 2019, Mr. Epstein's request for bail and pretrial release was denied.

(b)(7)(A)

On August 9, 2019, a federal court unsealed approximately 2,000 pages of documents into the public domain. These included graphic allegations against Mr. Epstein. Included was a book order receipt for titles such as *SM 101: A Realistic Introduction*; *SlaveCraft: Roadmaps for Erotic Servitude*; and *Training with Miss Abernathy: A Workbook for Erotic Slaves and Their Owners*. Additional high profile public figures were also named in the released documents. The documents were part of a defamation lawsuit filed by Virginia Roberts Giuffre, a woman who alleged Mr. Epstein had victimized her, against a British socialite, Ghislaine Maxwell, who was Mr. Epstein's ex-girlfriend, associate, and alleged to have assisted with his criminal activities. According to staff report, Mr. Epstein was afforded telephone calls on two different days although it is unknown whether they were legal or social calls. No recording of the calls exist and it is not known with whom he was speaking. One occurred on or around July 16, 2019, and the other on August 9, 2019. Legal calls are not monitored, and would not be recorded. A social call would be recorded; given the limited information known about Mr. Epstein, knowledge of the content of any social calls would have been crucial to helping staff work with him.

(b)(7)(A)

Inmate movement and assignments are not accurately reflected in SENTRY as required by P5500.14, Correctional Service Procedures Manual.

9. Attorney Log Books: Four log books were not secured following Mr. Epstein's death. Specifically, three Attorney Log Books located in the Attorney Visiting and Front Lobby areas and an Inmate Search Log Book located in the Attorney Visiting area were not secured. All four books were still in use at the outset of the reconstruction and after the reconstruction team advised staff to secure them. P5324.08 states, "In the event of a suicide, institution staff, particularly Correctional Services staff, and other law enforcement personnel, will handle the site with the same level of protection as any crime scene in which a death has occurred." This policy further states, "All possible evidence and documentation will be preserved to provide data and support for subsequent investigators doing a psychological reconstruction."

Further, a review of the attorney log books identified many errors and signify a systemic concern. For example, there were two concurrently open attorney log books in the Attorney Visiting area. Further, the different purposes of the two attorney log books, one in the Attorney Visit area and one in the Front Lobby, could not be explained. BOP staff were unable to articulate a system of control for the log books, and during the reconstruction, some of the log books could not be accounted for. Within the log books, entries were made out of chronological order, attorneys did not consistently sign in and out, significant information was illegible or missing, columns were not consistently labeled, log book opening and closing dates were inconsistent, and the cover had been torn off of several books. At the current time, these log books are not functioning as an adequate system of control and monitoring.

10. Automatic External Defibrillators: A review of available AEDs in the institution revealed that the list used for accountability and inspection purposes was inaccurate and incomplete.
11. Post Orders & SHU Training: SHU Post Orders Sign-In Sheets were reviewed for the 3<sup>rd</sup> Quarter, spanning June 9, 2019, to September 7, 2019. Officer (b)(6); (b)(7)(C) failed to sign post orders for SHU #3 post.

Quarterly SHU Training Sign-In Sheets were reviewed. The 2019 3<sup>rd</sup> Quarter SHU Training was conducted on June 6, 2019. Three staff assigned to the 3<sup>rd</sup> Quarter SHU Roster in SHU did not attend or receive the SHU Training: Officer (b)(6); (b)(7)(C), Officer (b)(6); (b)(7)(C) and Officer (b)(6); (b)(7)(C).

12. Staffing: The Drug Abuse Program Coordinator position at MCC New York was abolished during Phase I of the staff realignment during fiscal year 2018. Re-establishing

the Drug Abuse Program Coordinator position would provide the institution with an additional supervisory psychologist to provide critical clinical services.

Staffing in the Correctional Services department is relevant to the reconstruction. However, the details about this topic are provided in an After Action Review completed separately from this report.

- 13. Sex Offense Risk Factors:** A broad understanding of risk factors associated with sex offenders, by staff at MCC New York, did not appear to be present in all staff but was vital to his adjustment and safety in prison. (b)(5)

Hello,

Epstein is pending a Code 228, Tattooing or Self-Mutilation and I spoke with (b)(6); (b)(7)(C) who indicated that most likely he will be found competent because he is not mentally ill. (b)(7)(A)

(b)(7)(A)  
(b)(7)(A) Therefore, he will be pending a UDC hearing. Should he return to SHU, he will be housed with inmate (b)(6); (b)(7)(C) is a 54-year-old White Male. He is a Pretrial inmate on a Supervised Release Violation for Failure to Register as Sex Offender. He is refusing to go to general population.

The other inmates in SHU were reviewed for a possible cell mate, however, inmate (b)(6); (b)(7)(C) were determined the appropriate candidates as cell mates. However, (b)(6); (b)(7)(C) releases on July 26, 2019. He is also the current cell mate of inmate (b)(6); (b)(7)(C)

Below is the definition of Psychological Observation provided by (b)(6); (b)(7)(C) Chief Psychologist. He will remain on Psychological Observation until tomorrow, where he will be reassessed.

**DEFINITION:** A Psychological Observation occurs when an inmate who suffers from a mental illness, a serious personality disorder, a medical problem (impairing their mental status), or drug

serious personality disorder, a medical problem (impairing their mental status), or drug intoxication and/or withdrawal symptoms begins to deteriorate. The inmate is no longer mentally stable and therefore, it is inappropriate for s/he to remain in general population or the Special Housing Unit (SHU). Inmates placed on psychological observation differ from inmates placed on suicide watch as they are not imminently suicidal (e.g., have not expressed self-harm or engaged in self-harming behavior), but rather, due to his/her impairment in mental status or functioning (e.g., not eating, not sleeping, disorganized/unusual thinking, poor self-care), his/her behavior can be unpredictable. Psychological Observation status is intended as a temporary designation to be utilized until such time as the inmate becomes sufficiently stable (e.g., able to function independently in general population) to be returned to his/her housing assignment or transferred to an inpatient psychiatric facility such as a Federal Medical Center.

Good morning: Same presentation today, but he said he thinks his memory for the incident (injury to his neck) may be impaired because of his sleep apnea. He is supposed to get his CPAP machine today. He is aware he will be returning to SHU, but said he is feeling unwell due to his inability to sleep and numbness in his arm. He requested to have one good night of sleep with his CPAP and will return to SHU with a cellmate tomorrow. (b)(7)(A) I told him he can stay down one more night to receive his CPAP and a good night's sleep, but that he would be returned to SHU tomorrow. It was explained that there is no mental health issues precluding him from returning to SHU tomorrow and that we could not house him in the SW/Hospital area because (b)(7)(A) or more comfortable for him. (b)(7)(A) He will remain on psychological observation today and will transition to the SHU tomorrow. Thank you, (b)(6); (b)(7)(C)

AW Skipper-Scott,

Inmate Epstein seems psychologically stable.

He complained that his right arm was numb and hanging earlier. Nurse (b)(6); (b)(7)(C) saw him.

He again said his right arm still feels somewhat numb and he said he cannot make a fist with that hand. He also said he has numbness on his neck. I informed Nurse (b)(6); (b)(7)(C)

He stated the toilet in his cell was running for 45 minutes last night and he could not take the noise. He is going to try the toilet before going to legal today and if it does not shut off, he will be moved to another cell.

Thanks,

Good morning: Same presentation today, but he said he thinks his memory for the incident (injury to his neck) may be impaired because of his sleep apnea. He is supposed to get his CPAP machine today. He is aware he will be returning to SHU, but said he is feeling unwell due to his inability to sleep and numbness in his arm. He requested to have one good night of sleep with his CPAP and will return to SHU with a cellmate tomorrow. (b)(7)(A)

I told him he can stay down one more night to receive his CPAP and a good night's sleep, but that he would be returned to SHU tomorrow. It was explained that there is no mental health issues precluding him from returning to SHU tomorrow and that we could not house him in the SW/Hospital area because (b)(7)(A) or more comfortable for him. **Self-Harm History**

According to a Suicide Risk Assessment dated 7/09/19 by (b)(6); (b)(7)(C) "Inmate Epstein denied any past or present suicidal ideation, intention or plan. He denied ever engaging in any suicide attempts or self-injurious behavior in the past."

**Current Problem**

R & D staff reported to this writer this morning at about 8:30 AM on 8/01/19 that yesterday when Mr. Epstein was brought back from court the US Marshals asked him to sign a form that noted Mr. Epstein has "suicidal tendencies." This is likely due to the incident on 7/23/19, but as a precaution another Suicide Risk Assessment was conducted.

Mr. Epstein seemed surprised that there was a form noting suicidal tendencies. He denied stating he was suicidal.

He said he saw the DHO today and he said his incident report for the marks on his neck was expunged. He stated even though he has his cpap machine now, he said his cellmate talks at night and he stated this keeps him up. This writer offered to talk to the SHU Lt. to have him housed with a different cellmate, but he stated he wants to give it 3 to 4 days to see if he wants a different cellmate. He complained about the noise in SHU.

**Current Mental Status**

Level of Consciousness: Alert and Oriented

Psychomotor Activity: Normal

General Appearance: Normal

Behavior: Cooperative

Mood: Appropriate to Content

Thought Process: Goal Directed

coherent, with no loosening of associations or tangential, circumstantial or irrelevant speech. Auditory and visual hallucinations were denied, and delusions were not elicited. He did not engage in any bizarre or inappropriate behavior. He denied current suicidal or self harm ideation and he agreed to immediately tell staff if he starts to have suicidal or self harm thoughts. He was future oriented. He does not appear to be an immediate danger to self. He denied thoughts of hurting others and he agreed to tell staff if he has these thoughts.

#### **RISK AND PROTECTIVE FACTORS ASSESSED:**

This writer screened the inmate for a variety of empirically validated factors commonly associated with risk for self-harm and suicide.

The following **STATIC** risk factors were assessed to be present and increase the inmate's risk for engaging in suicide related behaviors: High Profile Crime, Lack of family connections, Sex offender status

The following **DYNAMIC** risk factors were assessed to be present and increase the inmate's risk for engaging in suicide related behaviors: Current physical pain, Sleep problems

The following **PROTECTIVE** factors were assessed to be present and may decrease the inmate's risk of suicide: Able to identify reasons to live, Denial of suicidal ideation/intention/plans, Future orientation, Religious beliefs against suicide, Supportive family relationships, View of death as negative, Willingness to engage in treatment

Risk Factors (b)(7)(A)

(b)(7)(A)

(b)(7)(A) He has a high profile sex offense case. He stated his lower back hurts and he stated Medical is aware of this. He stated he has difficulty sleeping even with his cpap machine because he stated his cellmate talks at night.

Protective Factors: He denied current suicidal or self harm thoughts and agreed to tell staff if he starts to have these thoughts. He had denied a history of self harm and suicide attempts. He had denied a family history of suicidal and self harm attempts. He had denied having any chronic medical conditions. He denied feeling hopeless. He had denied a history of childhood abuse. He denied fearing for his safety at this time. He denied feeling like a burden to anyone. He stated he lives for and plans to finish this case and to go back to his normal life. He said his friends and Lawyers are emotionally supportive. He said he is Jewish and he said in his religion suicide is against the religion.

Overall, his current protective factors override his risk factors for suicidality. He is currently psychologically stable. He denied feeling hopeless. He is reporting positive future plans and reasons to live for. He said he has social supports in the community and his Lawyers visit him often. He denied any current suicidal or self harm ideation, intention or plan. Suicide Watch is not indicated at this time.

#### **DIAGNOSIS:**

No Diagnosis, No Dx - Current

#### **CONCLUSIONS**

The Overall Acute Suicide Risk for this Inmate is: Low  
Overall Chronic Suicide Risk for this Inmate is: Absent

#### **RECOMMENDATIONS**

He said he has an appetite and is eating. He said he is waking up every 1 1/2 hours. He stated he feels dehydrated because he is not drinking enough water because he stated he feels he is not given enough bathroom breaks while with his Attorney. Current Mental Status: He exhibited a neutral mood with a full range of affect. His speech was logical and coherent, with no loosening of associations or tangential, circumstantial or irrelevant speech. Auditory and visual hallucinations were denied, and delusions were not elicited. He did not engage in any bizarre or inappropriate behavior. He denied current suicidal or self harm ideation. He stated he wants it noted in his chart that he is being given a pamphlet on sleep, but that is not going to help because of the noise in SHU that prevents him from sleeping.

**Progress/Plan**

He will remain on Psych Observation in an abundance of caution and pending housing arrangements to be made on Monday. While on Psych Observation, he will be seen daily by Psychology.

### 9. Attorney Log Books

Please provide a copy of the log book audit.

#### Institution Response:

The audit revealed the **Random Visitor Log Book** did not reflect visitor pat searches after May 19, 2019. In addition, the log book does not offer a column to annotate a staff witness. The **Contractor/Volunteer Log Book** was not always filled in properly. The **Law Enforcement Log Book** was up to date; however, the time of departure was not always documented. The **Attorney Log** was missing inmate register numbers and more often than not was legible. There was no **Visitor Denial Log** created. The audit conducted on September 25, 2019, is attached for your review.

Additional corrective measures will now include the Activities Lieutenant checking all Front Lobby log books. The Captain will ensure these checks are included in the Lieutenant's Daily Log for Day Watch and Evening Watch. In addition, the Activities Lieutenant will address any discrepancies immediately through on the spot training and/or performance log entries.

### **13. Sex Offense Risk Factors**

Psychologists are subject matter experts in sex offender risk factors and they play a crucial role in sharing this knowledge through traditional settings such as ICT, AT, and institutional meetings. However, Executive Staff play a pivotal role in establishing and addressing institutional culture and promoting and participating in training. A lack of a broad understanding of sex offender specific risk factors requires an intentional training approach led by Executive Staff. They must be out front talking about inmates with a sex offense, expressing an understanding of sex offender dynamics, modeling agency condoned expectations for the understanding and treatment of inmates with a sex offenses, and assisting with institutional trainings. These practices encourage a broader acceptance by line staff.

#### **Institution Response:**

The MCC New York Executive Staff are out front talking about inmates with sex offenses, and expressing an understanding of sex offender dynamics, modeling agency expectations for the understanding and treatment of inmates with sex offenses. This is done through departmental meetings, trainings, staff recalls and walking and talking throughout the institution.

9. Attorney Log Books: Four log books were not secured following Mr. Epstein's death. Specifically, three Attorney Log Books located in the Attorney Visiting and Front Lobby areas and an Inmate Search Log Book located in the Attorney Visiting area were not secured. All four books were still in use at the outset of the reconstruction and after the reconstruction team advised staff to secure them. P5324.08 states, "In the event of a suicide, institution staff, particularly Correctional Services staff, and other law enforcement personnel, will handle the site with the same level of protection as any crime scene in which a death has occurred." This policy further states, "All possible

evidence and documentation will be preserved to provide data and support for subsequent investigators doing a psychological reconstruction."

Further, a review of the attorney log books identified many errors and signify a systemic concern. For example, there were two concurrently open attorney log books in the Attorney Visiting area. Further, the different purposes of the two attorney log books, one in the Attorney Visit area and one in the Front Lobby, could not be explained. BOP staff were unable to articulate a system of control for the log books, and during the reconstruction, some of the log books could not be accounted for. Within the log books, entries were made out of chronological order, attorneys did not consistently sign in and out, significant information was illegible or missing, columns were not consistently labeled, log book opening and closing dates were inconsistent, and the cover had been torn off of several books. At the current time, these log books are not functioning as an adequate system of control and monitoring.

**Institution Response: 9. Attorney Log Books:**

On August 10, 2019, log books deemed relevant to the investigation were removed from various locations throughout the facility. The Reconstruction Team did identify pertinent logbooks that had not been secured. At this time, all relevant logbooks have been removed and replaced. In addition, a logbook audit was conducted to ensure accuracy of the documentation and compliance with policy. Measures are being taken to ensure in the future that all relevant logbooks are identified, secured immediately and replaced with new ones to ensure the institution can continue to run efficiently.

10. Automatic External Defibrillators: A review of available AEDs in the institution revealed that the list used for accountability and inspection purposes was inaccurate and incomplete.

**Institution Response: 10: Automatic External Defibrillators:**

A review of the Automatic External Defibrillators (AED) report presented by Great Lakes Biomedical Services dated July 22, 2019, revealed that all AEDS were accounted for and were placed in the correct respective areas. The report was accurate and complete. New AEDs have been purchased and will be inspected Great Lakes Biomedical Services upon their arrival. The list reviewed by the reconstruction team was an old and outdated list from January 8, 2018.

Medical staff provides training and conducts monthly inspections of all AEDs in the institution. Great Lakes Biomedical Services, an outside contractor, conducts a bi-annual inspection and provides a report. Procedures on inspecting all AEDS in the institution have been prepared and are awaiting approval. These procedures are attached hereto.

11. Post Orders & SHU Training: SHU Post Orders Sign-In Sheets were reviewed for the 3rd Quarter, spanning June 9, 2019, to September 7, 2019. Officer (b)(6); (b)(7)(C) failed to sign post orders for SHU #3 post.

Quarterly SHU Training Sign-In Sheets were reviewed. The 2019 3rd Quarter SHU Training was conducted on June 6, 2019. Three staff assigned to the 3rd Quarter SHU Roster in SHU did not attend or receive the SHU Training: Officer (b)(6); (b)(7)(C), Officer (b)(6); (b)(7)(C) and Officer (b)(6); (b)(7)(C).

**Institution Response: 11. Post Orders & SHU Training:**

The Suicide Watch Post Orders are located in the Lieutenant's Office and SHU with a quarterly sign-in sheet. A copy of the Suicide Watch Post Orders will also be placed in a secure container outside of the suicide watch cells on Tier H in SHU. This container will also hold signature sheets and additional Staff Suicide Watch Log Books.

All staff members assigned to a suicide watch post are responsible for signing the post orders prior to performing the staff suicide watch. Attached please find a copy of the NERO Waiver permitting staff monitored suicide watches in SHU.

With regard to SHU Suicide Prevention training, this continues to be conducted on a quarterly basis. However, the sign-in sheets for this training are now be examined by the SHU Lieutenant for accuracy. If a staff member who is assigned to SHU misses the training, the sign-in sheet will be routed to the Captain, who will coordinate with the Chief Psychologist and schedule a time to receive a make-up session for the SHU Suicide Prevention Training.

SHU training is conducted quarterly two weeks from the beginning of the new quarter. A representative from Psychology will provide the required suicide prevention training. In addition, the SHU training on BOPLEARN will be completed by all staff assigned to SHU that day of training. SHU staff will be allotted time during that day to complete all prescribed web-based training as identified on the agenda. Staff who are assigned to SHU but have not received the mandatory training before assuming the post will be roster-adjusted to attend another training day as assigned by the Captain.

Staff assigned to suicide watch shall maintain a chronological log of the inmate's behavior. Blank log books will be maintained in the Lieutenants office and on the 2<sup>nd</sup> Floor. A chronological record of events will commence immediately upon the initiation of watch. It is the responsibility of the staff member initiating the watch to obtain a blank log book prior to initiating the watch. Different log books will be used for each inmate on suicide watch; each log book will contain entries for one suicide watch only. The name and register number of the inmate on watch shall be clearly printed on the front cover of the log book and at the top of each page in the log book in which entries are made.

During some suicide watches, staff observers may cover some shifts and inmate companions may cover others. In this instance, two separate log books must be used: one for the shifts during which staff are maintaining constant visual observation (blue) and another for shifts during which inmate companions are providing constant visual observation (yellow). When separate inmate companion log books are used, staff must sign the inmate companion log book every 60 minutes.

Lights will remain on inside the cell 24 hours day to ensure the inmate on watch can be seen. A Lieutenant will make rounds every shift and remove the inmate from the cell and perform a cursory search. No food items, trays, eating utensils, milk cartons, toilet paper, plastic bags, reading materials, pens, pencils, or anything else not prescribed by Psychology staff should be in the cell.

The inmate will be outfitted in a suicide preventive smock, suicide preventive blanket, suicide preventive mattress and if necessary a suicide preventive helmet. Inmate Companions will be searched prior to assuming duties. Inmate Companions are not allowed to have radios, mp3 players, magazines, books or anything that would distract them from maintaining constant supervision. Inmate Companions will not have direct or physical contact with inmates on suicide watch.

12. Staffing: The Drug Abuse Program Coordinator position at MCC New York was abolished during Phase I of the staff realignment during fiscal year 2018. Re-establishing the Drug Abuse Program Coordinator position would provide the institution with an additional supervisory psychologist to provide critical clinical services.

Staffing in the Correctional Services department is relevant to the reconstruction. However, the details about this topic are provided in an After Action Review completed separately from this report.

**Institution Response: 12. Staffing:**

The Drug Abuse Coordinator position is currently a shared position. The Warden has re-established the Drug Abuse Coordinator position as a full-time position to provide the Psychology Department with an additional supervisory psychologist to perform critical clinical services. At the current time, the position is pending selection.

We are currently in the process of requesting to hire a Staff Psychologist position to provide additional psychological services to inmates in the SHU, including therapy sessions with PSY ALERT, CC2-MH and CC3-MH inmates who are currently housed there. An additional psychologist could also monitor Hot List inmates arriving to the SHU and ensure they are housed with appropriate cellmates. This psychologist could conduct daily rounds to look for signs of psychological distress and address the concerns of our Long Term SHU inmates. Finally, an additional Staff Psychologist could assist with our daily crisis interventions and suicide risk assessments.

13. Sex Offense Risk Factors: A broad understanding of risk factors associated with sex offenders, by staff at MCC New York, did not appear to be present in all staff but was vital to his adjustment and safety in prison. A more

(b)(5)

**Institution Response: 13. Sex Offense Risk Factors:**

The Chief Psychologist is a member of the Executive Staff. The Chief Psychologist or her designee continues to be present at all Executive Staff meetings, Department Head meetings, and SHU meetings. During these meetings, the Chief Psychologist offers feedback regarding the treatment and management of sex offender inmates. Additionally, the Chief Psychologist continues to educate all staff during Introduction to Correctional Techniques (ICT) and Annual Training (AT) about the sex offender specific risk factors and suicidality.

Good morning: Same presentation today, but he said he thinks his memory for the incident (injury to his neck) may be impaired because of his sleep apnea. He is supposed to get his CPAP machine today. He is aware he will be returning to SHU, but said he is feeling unwell due to his inability to sleep and numbness in his arm. He requested to have one good night of sleep with his CPAP and will return to SHU with a cellmate tomorrow. [b)(7)(A)] I told him he can stay down one more night to receive his CPAP and a good night's sleep, but that he would be returned to SHU tomorrow. It was explained that there is no mental health issues precluding him from returning to SHU tomorrow and that we could not house him in the SW/Hospital area because [b)(7)(A)] or more comfortable for him. [b)(7)(A)] He will remain on psychological observation today and will transition to the SHU tomorrow. Thank you, [b)(6); (b)(7)(C)]

AW Skipper-Scott,

Inmate Epstein seems psychologically stable.

He complained that his right arm was numb and hanging earlier. Nurse [b)(6); (b)(7)(C)] saw him.

He again said his right arm still feels somewhat numb and he said he cannot make a fist with that hand. He also said he has numbness on his neck. I informed Nurse (b)(6); (b)(7)(C)

He stated the toilet in his cell was running for 45 minutes last night and he could not take the noise. He is going to try the toilet before going to legal today and if it does not shut off, he will be moved to another cell.

Thanks,

Lamine - The memo is very confusing. Please draft an email of his actions and current status. Also include what plans were in motion to move him to a GP unit. It will need to be clear and concise.

If you happen to get this tonight, maybe you can call me on my cell at 202-32 (b)(6); (b)(7)(C) My boss may want to answer this reporter tonight, but before we send an answer perhaps like the one below we wanted to see for our own internal awareness what you may know about this if any of it is true in regard to Epstein.

My mobile Samsung is not always receiving emails and leaving work now, so my personal cell by calling the number above is best if you get this.

Thanks so much,

While I will probably reply to this reporter with something like my draft below which doesn't reveal much if anything, nonetheless we want to be sure we understand from you or the institution what if anything may have happened with inmate Epstein. Could you see if the institution can look into this and provide us with what they may know for our internal purposes (not for release to media)? We will reply to media inquiries about Epstein (not the institution) since stories about him are national news (unless we finalize an answer that we could give to the institution to use as well if media ask about this tomorrow).

Thanks,

**Institution Disciplinary Process Report**

Inmate Name: EPSTEIN, JEFFREY EDWARD		Reg #: 76318-054
Date of Birth: 01/20/1953	Sex: M	Unit Team: 5
Date: 07/30/2019 12:01	Provider: (b)(6); (b)(7)(C)	Facility: NYM PsyD

**Reason for Referral and Identifying Information**

Inmate Epstein was referred by Unit Manager (b)(6); (b)(7)(C) for an evaluation of competency to proceed with the disciplinary process for actions resulting in an incident report. On 7/23/19, inmate Epstein was charged with code 228 (Tattooing or Self-Mutilation). These infractions were assigned incident report number 3282555.

**Background Information**

According to a Suicide Risk Assessment dated 7/09/19 by (b)(6); (b)(7)(C) "Inmate Epstein denied any history of mental health treatment, either on an inpatient or outpatient basis. Inmate Epstein denied any treatment in the past or present with psychotropic medication. He also denied any acute mental health symptoms at this time."

According to a Suicide Risk Assessment dated 7/09/19 by (b)(6); (b)(7)(C) "Inmate Epstein denied any past or present suicidal ideation, intention or plan. He denied ever engaging in any suicide attempts or self-injurious behavior in the past."

(b)(7)(A)

**Clinical Interview and Mental Status Exam**

(b)(7)(A)

Current Mental Status: He exhibited a neutral mood with a full range of affect. His speech was logical and coherent, with no loosening of associations or tangential, circumstantial or irrelevant speech. Auditory and visual hallucinations were denied, and delusions were not elicited. He did not engage in any bizarre or inappropriate behavior. There was no indication of disturbed thought process or content. Intellectual ability appeared to be above average. Personal hygiene was adequate. He denied current suicidal or self harm ideation and he agreed to immediately tell staff if he starts to have suicidal or self harm thoughts. He was future oriented. He does not appear to be an immediate danger to self. He denied thoughts of hurting others and he agreed to tell staff if he has these thoughts.

**Clinical Impression**

According to his last Diagnostic and Care Level Formulation Note dated 7/09/19 by (b)(6); (b)(7)(C) "No Diagnosis, No Dx - Current."

**Findings**

The determination of whether an inmate is competent to proceed with the disciplinary process is based on a clinical assessment of the inmate's (1) ability to understand the nature of the proceedings, and (2) their ability to assist in their own defense. Depending on the outcome of the assessment, one of three findings can be made: (1) the inmate is COMPETENT to proceed with the disciplinary process; (2) the inmate is NOT PRESENTLY COMPETENT but could be restored to competence with treatment; or (3) the inmate is NOT COMPETENT and is unlikely to become competent.

**Recommendations Regarding Sanctions**

In the case of inmate Epstein, after a review of available psychological and psychiatric records as well as information pertaining to the offense conduct, it is determined that this inmate is:

- (X) COMPETENT to proceed with the disciplinary process.
- ( ) NOT PRESENTLY COMPETENT, but could become competent with treatment; it is recommended that the inmate for an updated competency assessment in 30 days.
- ( ) NOT COMPETENT and not likely to become competent.

**Focus of Session**

Inmate Epstein was seen while on psychological observation today in the hospital area.

**Subjective/Objective Presentation**

Same presentation today, but he said he thinks his memory for the incident (injury to his neck) may be impaired because of his sleep apnea. He is supposed to get his CPAP machine today. He is aware he will be returning to SHU, but said he is feeling unwell due to his inability to sleep and numbness in his arm. He requested to have one good night of sleep with his CPAP and will return to SHU with a cellmate tomorrow. (b)(7)(A)

(b)(7)(A) I told him he can stay down one more night to receive his CPAP and a good night's sleep, but that he would be returned to SHU tomorrow. It was explained that there is no mental health issues precluding him from returning to SHU tomorrow and that we could not house him in the SW/Hospital area because (b)(7)(A) (b)(7)(A) or more comfortable for him. (b)(7)(A)

According to his log book and eating/shower chart, he has been eating and drinking when not in his legal visits. He has also been writing and attending his legal visits.

**Intervention(s)**

Inmate EPSTEIN was provided with brief supportive interventions and psychoeducation regarding additional coping strategies. Inmate EPSTEIN was somewhat receptive to these interventions, but appears more concerned about getting his various needs in the prison (phone calls, recreation, housing placement concerns, etc.)

**Progress/Plan**

He will remain on psychological observation today and will transition to the SHU tomorrow. He will be seen by psychology daily to assess his mental status and psychological functioning.

He was seen by writer while he was on Psych Observation.

**Subjective/Objective Presentation**

The "Eating/Shower Chart" indicated yesterday he ate dinner, drank liquids, and took a shower when offered. The Psych Observation Log noted he brushed his teeth, went to a Legal visit, talked about business and investing to an Inmate Companion, ate, and slept.

(b)(7)(A) He stated that for the 5 days before that he had only slept about 30 minutes each night because of noise in SHU. (b)(7)(A)

(b)(7)(A)

(b)(7)(A)

He said he has an appetite and is eating. He said he is waking up every 1 1/2 hours. He stated he feels dehydrated because he is not drinking enough water because he stated he feels he is not given enough bathroom breaks while with his Attorney. Medical was e-mailed with his complaint of feeling dehydrated. He said his Lawyers and friends are all emotionally supportive.

Current Mental Status: He exhibited a neutral mood with a mildly full range of affect. His speech was logical and coherent, with no loosening of associations or tangential, circumstantial or irrelevant speech. Auditory and visual hallucinations were denied, and delusions were not elicited. He did not engage in any bizarre or inappropriate behavior. He denied current suicidal or self harm ideation. He agreed to immediately tell staff and Inmate Companions if he starts to have suicidal or self harm thoughts. He was future oriented. He does not appear to be an immediate danger to self. He denied thoughts of hurting others and he agreed to tell staff and Inmate Companions if he has these thoughts.

**Intervention(s)**

Supportive and educative interventions were provided. He was given Turning Points handouts on stress management, sleep, and building a routine in SHU. He stated he wants it noted in his chart that he is being given a pamphlet on sleep, but that is not going to help because of the noise in SHU that prevents him from sleeping.

**Progress/Plan**

He will remain on Psych Observation in an abundance of caution and pending housing arrangements to be made on Monday. While on Psych Observation, he will be seen daily by Psychology.

**Subjective/Objective Presentation**

Prior to this writer's contact with him, Inmate Epstein showered and dressed himself for his legal visit today. He was smiling and did crack some jokes during the interview. He stated he remains unhappy with legal visiting procedures as he cannot go to the bathroom as frequently as he would like to since he has a "weak bladder." Inmate Epstein also reported since coming to the psychological observation area, he has felt constipated and needs his Colace. He had self-carry Colace in SHU, but since coming to the observation area, he has not had his medication. (b)(7)(A)

(b)(7)(A)

When this writer attempted to get a more detailed account from him, indicating that it would be rare to have such impairments in memory as he does not suffer from an acute cognitive disorder, he smiled and said he understood my position.

Inmate Epstein did reveal he is unhappy with his current confinement in Special Housing (SHU) as he considers it "a punishment cell." He said he finds the restrictions up there unfair as he has not done anything wrong. Inmate Epstein stated he feels it is dangerous in the SHU, he cannot sleep well up there due to noise from the other inmates, it smells, and it is difficult for him to work on his legal case up there. He stated he has not received the phone calls he was promised nor has he been able to receive recreation. It was explained to him that he spends the entire day in the attorney conference room and it is likely that he has missed the times when staff members have attempted to give him phone calls and recreation. Inmate Epstein also reported complaints about the attorney conference room, stating they do not take him to the bathroom frequently enough.

Inmate Epstein adamantly denied any suicidality at this time, stating "I am too vested in my case to fight it, I have a life and I want to go back to living my life." He denied any acute symptoms at this time.

According to his log book, he has been eating, drinking, sleeping, and interacting with the inmate companions. He has also been attending his daily legal visits.

**Intervention(s)**

Inmate EPSTEIN was provided with brief supportive interventions and psychoeducation regarding additional coping strategies. Inmate EPSTEIN was mostly receptive to these interventions. He requested to be housed in general population rather than the SHU and stated he wanted to remain on psychological observation due to his concerns with being in the SHU.

In an abundance of caution, inmate Epstein will remain on psychological observation. (b)(7)(A)

**TO:** Charisma Edge, Associate Warden Programs

**FROM:** (b)(6); (b)(7)(C) Psy.D., Ph.D., Forensic Psychologist (b)(6); (b)(7)(C) PEP/b

**SUBJECT:** Epstein #76301-054

This memo summarizes the psychology contacts with Mr. Epstein.

Mr. Epstein arrived on July 8, 2019, and was seen by psychology services for an intake screening in SHU. He denied any psychology history or symptoms. The Chief Psychologist spoke with Central Office on July 8, 2019, and it was determined he should be placed on suicide watch and seen for a suicide risk assessment after he returns from court due to his increased suicide risk factors. Mr. Epstein was seen on July 9, 2019, for a suicide risk assessment where he denied any suicide ideation, intention, or plan. Despite his risk factors of his sex offence charge, high profile case with media attention, and pretrial status housed in SHU, his protective factors outweighed his risk factors. He was future oriented, wanted to fight his case, and denied any mental health history or suicidality. He was removed from suicide watch and placed on psychology observation. He was seen the following day at which time he requested to be celled alone if housed in SHU and was told he could not. Mr. Epstein was released from psychology observation and seen on July 11, 2019, in attorney conference. He expressed concerns such as wearing an orange jumpsuit, not receiving medication, and not having enough water during attorney visits. Mr. Epstein was seen one week later, July 16, 2019, for follow up and because he was asking to be seen. He did not express any psychological concerns, rather correctional issues such as not getting a phone call and needing a spoon. An attempt at a SHU review was made on, July 18, 2019; however, Mr. Epstein was with his legal team.

(b)(7)(A)

(b)(6); (b)(7)(C)

(b)(7)(A)

Mr. Epstein was seen daily while on psychology observation, each day denying he was suicidal. During one interview, he claimed he could not remember what happened because of his "sleep apnea." On July 30, 2019, Mr. Epstein was removed from psychology observation and returned to SHU. He reported he did not think he could sleep in SHU because of the noise. He denied any psychological concerns. It was noted he would be placed with a cellmate.

On July 31, 2019, Mr. Epstein was seen for a psychology observation follow up. He stated he was doing as well as can be expected given his circumstances and reported he was going to court for a status hearing. He also reported he slept well. Mr. Epstein was seen for another suicide risk assessment on August 1, 2019, at approximately 1pm, as he returned from court with a note from the court indicating "suicidal tendencies." Mr. Epstein denied he was suicidal. (b)(7)(A)

(b)(7)(A) He complained about the noise in SHU. Mr. Epstein's protective factors outweighed his risk factors and he was not placed on suicide watch. He denied suicidal ideation, reported fighting his case, stated he has emotional support, and stated suicide is against his religion.

On August 8, 2019, Mr. Epstein was seen for a follow up session. He stated he was feeling ok and his sleep was fair. He again requested to go to general population. He denied any mental health symptoms. He denied any suicide ideation, intention or plan. He had a cellmate. He spends his days with his attorney.
