It has been a couple of weeks since I got back + I have gotten back into the swing of things. A couple of quick details about NY I didn't mention earlier - went to see The Duchess adolescent play, + Blue Man group takes off Broadway really cool production. Went to the flea market where I got some cool stuff, went to Jeffrey Epstein's mansion, went to the Met, a pretty fun New Year's Eve party, went to thrift stores where I got an amazing dress for prom, it's from the fifties, lace with pink flowers w/ rhinestones in the middle all over it, it is my dream dress. One night we went to the movies w/ Jeffrey Epstein - I + was a little weird one of those things that is real hard to explain we were sitting next to each other + he put out his hand for me to hold + we were holding hands (not weird, normal + fine) then he kind of caressed/rubbed my arm + shoe/foot - It was one of those things that just gave me a weird feeling but wasn't that weird + probably normal - the one thing that kind of weirded me out about it was he let go of my hand when he was talking to

DOJ REDACTION - Oh well I decided it was no big deal, I + just made me mad because he is being so amazing - paying for a summer program for me - helping me w/ college - he is so nice + so generous w/ everyone + I just didn't want to have any weird feelings about it - I didn't/couldn't say anything.

so to [redacted] about it because she worships him
+ it would just create problems I couldn't
tell anyone else because it is ~~still~~ not a
big deal + I didn't want to portray him
in a bad light. I really don't think it is
a big deal. I think he is just a relaxed guy
+ likes to flirt, or was being fatherly or something.
I know this sounds like me trying to justify
him doing something weird, but it isn't.

Right now my big concern is what I am
going to do this summer. There are so
many cool things to do + amazing places
to go. Right now I am really thinking about
doing something in Africa. It would be incredible -
so different, so beautiful, all the different
people I would love it. I think I will really
be happy doing almost anything.

I am entering, actually am in a pretty
good period. This could all be over by
tomorrow but I feel pretty happy right
now + excited for the future, (not
immediate - track + school), this summer senior
year, + college. [redacted]
